Chaconne

Johann Pachelbel

The image displays the first 30 measures of the Chaconne by Johann Pachelbel, arranged in six systems of two staves each (treble and bass clef). The key signature is three flats (B-flat, E-flat, A-flat) and the time signature is 3/4. The score includes various musical notations such as eighth and sixteenth notes, rests, and accidentals. Measure numbers 6, 11, 16, 21, and 26 are indicated at the beginning of their respective systems. A trill (tr) is marked in measure 18. The notation is clear and professional, typical of a printed musical score.

31

System 31: Treble and bass staves. Treble staff has a melodic line with eighth and sixteenth notes, including a trill. Bass staff has a supporting line with eighth notes and rests. Key signature: three flats.

37

System 37: Treble and bass staves. Treble staff continues the melodic line with a trill. Bass staff has a supporting line with eighth notes and rests. Key signature: three flats.

Introduction to Polyphonic Playing

The pieces in this volume are to assist in mastering contrapuntal thinking and the technique necessary for playing polyphony. Their compilation is intended for progressive study, each piece being either easy or of intermediate difficulty both technically and as regards the part-playing. They can act as good preparatory studies for the more complicated and difficult contrapuntal music of Bach: the inventions and fugues.

Since polyphonic music for the keyboard is not confined to the Baroque period, music has been selected from the output of several centuries, with no intention of illustrating the history of polyphony. They range from the organ works of Diruta at the end of the sixteenth century right up to piano pieces by Bartók. At the same time the selection provides an introduction to the most divergent forms and genres (*ricercar*, *canzona*, *fugue*, *fughetta*, *canon*, *verset*, *invention*, *chorale arrangement* etc.).

We have followed the spirit of early music in not making any distinction between the various keyboard instruments. Hence the volume includes pieces like chorale arrangements by German Baroque composers intended rather for the organ (J. G. Walther, G. Ph. Telemann, J. L. Krebs etc.) and the Bertalotti *solfeggio* pieces composed for vocal practice. The fugues by Johann Klemm published in 1631 were written for organ, but the composer himself suggests that the different voices can be shared between the instruments of any suitable performing ensemble. Today we can do the same with the other compositions as well. The collection may of course be used not just by pianists, but by harpsichordists and organists.

Because two-part pieces and those in several parts present the performer with completely different technical demands in part-playing, the volume has been divided into two sections. Each section has been arranged in chronological order, the works of a particular composer being presented in order of difficulty. Like other volumes in the "Step by Step" series, this volume has also been edited in conformity with the principles of Urtext editions. The scores have been prepared from the available authentic sources, and therefore they contain no editorial additions.
